2026 TAX CODE 179 - Current Qualifying Models

IMPORTANT: A dagger (†) means only certain trims, drivetrains, cab/bed combinations, battery versions or option packages clear 6,000 pounds. Even without a dagger, check the federal certification label on the exact vehicle before purchase. Model-year changes can alter GVWR, so never assume that the prior or following model year has the same rating.

Make	Current qualifying model(s)

Tax laws and vehicle specifications are complicated and can change. Vehicle eligibility also depends on model year, trim, drivetrain, cab, wheelbase, bed, seating, battery and option packages. While every effort was made to make this guide accurate and complete, Car Pro Radio Network, CarPro and their affiliates are not responsible for errors or omissions. Always verify the exact vehicle's federal certification label and consult a qualified tax professional before making a purchase or claiming a deduction.
